CLOSED	Regular	Regular	Reduced	CLOSED	Regular	Regular
Stat Holiday observed	9am to 8pm	1:30-8pm	9am to 12:30pm	Stat Holiday	Urgent Care (9am to 1pm)	CLOSED

Your Health is Important!

We hope you are staying safe and keeping well. Although the city has entered another lockdown, we want you to know that we are still here to provide healthcare and support. Please reach out to us if you have any unaddressed health concerns. We do not know how long we will be in this pandemic, and 'saving up' health issues for when the pandemic is over can lead to worsening problems.

Many health issues can be managed virtually!

Tips for Booking Appointments

We encourage you to book virtual appointments (phone or video calls) due to the COVID pandemic.

Online booking:

- You will no longer be able to book an in-person appointment through our website.
- Virtual appointments can still be booked online.

In person visits:

- If you feel you need to be seen in person, please call the clinic at 416-603-5888, option 2, where the request will be assessed.
- You may receive a phone call from reception at Garrison Creek to convert an already existing in-person appointment to a virtual appointment. These appointments will be changed to a phone or video call.
- Some appointment types, such as annual physicals, cryotherapy and elective procedures have been put on hold. You will be called if your appointment needs to be cancelled or rescheduled.

COVID-19 Symptoms:

- Anyone displaying <u>ANY</u> symptoms of COVID-19 will be advised to visit a <u>COVID Assessment Centre.</u>
- No COVID swabs are being performed at Garrison Creek
- A physician will not be able to provide return to work notes for anyone who has displayed symptoms of COVID.
- Please refer to the <u>OMA COVID-19 Attestation form</u> that contains two forms that can be used instead of a doctor's note.

A reminder that Garrison Creek is closed on Wednesday mornings, opening at 1:30pm. Please contact us during hours that we are open. 416-603-5888, option 2.

Tips for a Successful Virtual Visit

A virtual visit is a meeting with your health care provider to discuss your health issues. This meeting may take place by phone, or video. Here are some tips for getting the most out of your visit:

- 1. When you book the appointment, ensure that you share your preferred method of communication.
 - a. If you choose the phone, then ensure your phone number is up to date.
 - b. If you choose a video appointment, please make sure that you have the appropriate technology to join this type of visit. You will need:
 -a web-cam enabled computer, smartphone or tablet with good quality speakers, a microphone and supported web browser
 -strong internet connection with wifi or data
 -an e-mail account
- 2. If your concern is urgent, you may want to book an in-person appointment instead of a virtual appointment. **If you are not sure how urgent your concern is, please ask to speak with a nurse.**
- 3. Make sure that you are in a **private**, **quiet place** to participate in the meeting (for example, the car or grocery store is not ideal).
- 4. **Be available for about 30 minutes before and 30 minutes after your scheduled visit time.** Similar to an in-person visit, your health care provider often has appointments with other patients that day. This

sometimes makes it difficult to be exactly on-time.

- 5. **Be prepared** with a list of your concerns and expectations, and share them at the beginning of your visit. Like an in-person visit, **virtual appointments with your physician last about 10-15 minutes.** Appointments with allied health clinicians may range from 30-60 minutes. If you run out of time, then your provider will ask you to book another appointment.
- 6. As always in a teaching practice, **learners may be involved in your care**. They may participate in your virtual visit under the supervision of your main health care provider.

Would you like to quit smoking?

Our family health team offers a **smoking cessation program** which supports smokers to quit successfully using the best proven treatments available.

What Should I Expect?

- Personalized counselling sessions and quit plan based on your needs.
- Ongoing support to help you quit
- Strategies to help you avoid smoking and manage stress
- How to use the right medications to help you quit.

To Register:

You can self-refer by calling 416-603-5888, ext. 3422 or register online

Keeping Busy During The Winter Season
