

Join the **PATHFINDER 2 Study**

Help improve early cancer detection.

The PATHFINDER 2 Study will evaluate the performance of a multi-cancer early detection test, called Galleri, which may be able to detect many types of cancer through a simple blood draw at a UHN hospital.

To join, contact our study team at:

(647) 302-5707

PATHFINDER2@UHN.ca

Individuals aged 50 years or older with no active or treated cancer within the past 3 years, and who are not pregnant, are invited to participate.

Visit www.joinPATHFINDER2study.com for more details OR drop by **Consult Room 5 at the Toronto Western Family Health Team.**
